

G A R V K H U R A N A

LEADER | BUILDER | INVENTOR

TECHNICAL LEADERSHIP & EXPERTISE

- **Engineering Leadership:** Built and led 15+ member teams across multiple projects; orchestrated work across 10-15 cross-functional teams; P&L ownership (\$750K+ revenue); scaled teams from 2 to 15 members; established hiring processes, engineering culture, and technical standards
- **Technical Architecture:** Production AI/ML systems (LLMs, multi-agent, RAG); Full-stack (Python, JavaScript, TypeScript, React, Node.js); Cloud infrastructure (AWS, Azure, GCP, Docker, Kubernetes); DeFi protocols, blockchain, quantitative modeling
- **Business & Strategic Impact:** \$750K+ revenue generation; 0→1 product launches; 5+ enterprise applications serving Fortune 500; Top Rated on Upwork (20+ five-star reviews); NVIDIA GTC presenter; founded and scaled one company to profitability

PROFESSIONAL EXPERIENCE

Lead Architect (Generative AI), Fractal.ai

August 2023 – Present

Enterprise AI company serving Fortune 500 clients

Gurugram, India

- Leading **15+ member engineering team** building Fractal's enterprise AI platform; managing technical roadmap, architecture decisions, hiring, and delivery across 2-3 parallel projects
- Architected **cogentiq**, Fractal's flagship multi-agentic AI platform, from concept to production serving as technical foundation for **5+ enterprise applications** deployed to Fortune 500 clients
- Built and launched **Underwriting Risk Product** as Lead Tech & Product Owner—enterprise vertical solution automating insurance risk assessment; owned entire product lifecycle from customer discovery to production deployment
- Developed **Marshall Goldsmith AI** (marshallgoldsmith.ai)—AI coaching platform for executive leadership development; managed cross-functional collaboration with product, design, and business stakeholders
- Established engineering best practices including code review processes, deployment pipelines, monitoring systems, and evaluation frameworks for production applications
- Led technical hiring and onboarding; grew team from 8 to 15 engineers; established technical standards and engineering culture

Founder & CEO, Techmendous Inc.

2018 – 2023

Finance and technology company providing R&D services across algorithmic trading, DeFi, and AI

Virtual Office - Global

- Founded and scaled technology company generating **\$500K+ revenue** from proprietary algorithmic trading systems; achieved profitability within 18 months through technical execution and strategic client acquisition
- Built cross-disciplinary engineering teams of **8-10 members** (software engineers, ML engineers, actuaries, full-stack developers); responsible for full P&L, hiring strategy, compensation decisions, and resource allocation
- Achieved **Top Rated status on Upwork** with **\$250K+ client earnings**; delivered 20+ five-star projects demonstrating ability to understand client needs, scope technical work, and deliver high-quality solutions
- Created **AWS ML/AI educational content** (9 lecture videos) for Fortune 500 executive audience; demonstrated ability to communicate complex technical concepts to business stakeholders
- **Led DeFi Research & Development (2021-2023):** Built risk management framework for Euler Protocol; contributed to [EulerSwap research paper](#); developed simulation tools for DeFi protocols including Uniswap, Balancer, and oracle systems; demonstrated technical breadth across blockchain, finance, and risk management
- Managed all business operations: technical delivery, client relationships, financial planning, team culture, strategic planning

Founder & Lead, Personal Projects

Ongoing

Technical innovation initiatives

- **aggrag:** Authored and open-sourced framework for RAG experimentation; **presented at NVIDIA GTC 2024** in San Francisco demonstrating thought leadership in AI/ML community
 - **insightsin5:** Building AI-powered business intelligence platform for SMB market; managing full product lifecycle from concept to development
-

Actuarial Analyst, RSA Insurance Group

2014 – 2017

Legacy insurance business managing \$8.5bn pension liabilities

Delhi/London

- . Built quantitative models for enterprise-scale pension portfolio management; delivered **\$200M+ business value** through systematic risk analysis and portfolio optimization
- . Led technical training and knowledge transfer for **8-member analyst team**; redesigned onboarding curriculum improving efficiency by 40%
- . Demonstrated ability to communicate complex technical work to executive stakeholders in quarterly business reviews

Risk Analyst, Essex Lake Group

2014

Management consulting firm, \$42M annual revenue

Delhi

- . Led analytical team to **Top 6 placement** in nationwide corporate strategy competition at Indian School of Business

KEY PROJECTS & TECHNICAL CONTRIBUTIONS

- . **cogentiq** - Enterprise AI Platform: Led architecture of Fractal's flagship platform for orchestrating AI agents. *Impact: 5+ production applications, Fortune 500 deployment*
- . **aggrag** (NVIDIA GTC 2024): Open-source RAG experimentation framework. *Impact: Community adoption, conference presentation, thought leadership*
- . **Techmendous Trading Platform**: Built autonomous trading system from concept to \$500K+ revenue. *Impact: Market validation, technical recognition*
- . **Euler Risk Framework**: DeFi security research and protocol analysis. *Impact: Protocol security, research publication*
- . **Marshall Goldsmith AI**: Executive coaching platform managing product from concept to production. *Impact: Production deployment, cross-functional leadership*

ACADEMIC EXPERIENCE

Student Actuary

2013 – 2019

Institute and Faculty of Actuaries & Institute of Actuaries of India

UK & India

- . Professional qualification in quantitative risk modeling; applied methods to algorithmic trading and blockchain protocols

Executive Program in Algorithmic Trading, Quantinsti

2016

6-month CPD-accredited program

India

- . Professional development in quantitative finance; recognized by profession leadership

Automobile Engineering, B.Tech

2009 – 2013

Manipal University

India

- . Founding member of SolarMobil Manipal; demonstrates early entrepreneurship and technical innovation

LEADERSHIP & RECOGNITION

- . **Speaking**: NVIDIA GTC 2024 (San Francisco); AWS ML/AI content for Fortune 500 executives; EulerSwap research paper contributor
- . **Recognition**: Top Rated Freelancer on Upwork (\$250K+ earnings, 20+ five-star reviews); Institute of Actuaries acknowledgment; AI Evaluation training by Hamel Husain
- . **Mentorship & Team Development**: Mentored engineers who progressed to senior roles at major institutions; scaled teams from 2 to 15 members; established hiring processes and engineering culture
- . **Entrepreneurial Track Record**: Founded two companies (\$500K trading platform, \$250K consulting); demonstrated market validation scaling first engagement from \$5K to \$250K+ total; multiple 0→1 product launches
- . **Key Strengths**: 0→1 product development; technical architecture and engineering leadership; P&L management; cross-functional collaboration; hiring and team building
